

Prescription Diet™ i/d™ Feline

For the nutritional management of gastrointestinal disorders and for restorative care.

Digestive Care

Restorative Care

Recommended for:

- Most gastrointestinal disorders
- Gastrointestinal disorders in kittens
- Low colonic motility/megacolon
- Maldigestion & malabsorption
- Restorative/Urgent care
- Pancreatitis
- Exocrine pancreatic insufficiency

Not recommended for:

Additional information

- Provides complete balanced nutrition for adult cats and for growing kittens and is suitable for long term feeding

Other products to consider

- Fibre-responsive gastrointestinal disorders:
Prescription Diet™ w/d™ Feline
- Adverse food reactions:
Prescription Diet™ z/d™ Feline
or **d/d™ Feline**.

FOOD	FLAVOUR	SIZES AVAILABLE
	Chicken	400 g 1.5 kg
		5 kg
	Minced with Chicken	85 g x 24
		156 g x 24
	Chicken	85 g x 12
	with Salmon	85 g x 12

Kibble is shown at actual size. Colours may vary from photograph.

KEY FEATURES ³		KEY BENEFITS
Digestibility	High	Improves availability of nutrients whilst allowing for recovery of the digestive tract
Soluble fibre	Increased	Helps promote healthy balance of gut bacteria
Electrolytes & B-complex vitamins	High	Help replenish losses due to vomiting and diarrhoea
Clinically proven antioxidants	Added	Neutralise free radicals associated with gastrointestinal disorders
Texture (canned)	Smooth pâté	Gentle on the stomach

For the nutritional management of gastrointestinal disorders and for restorative care.

Digestive Care

Restorative Care

COMPOSITION POUCH

Chicken: Chicken (27%), pork, tapioca starch, salmon, wheat flour, vegetable protein concentrate, glucose, maize starch, minerals, cellulose, protein meal, yeast, sunflower oil, trace elements and vitamins. Coloured with natural caramel.

with Salmon: Chicken liver, pork, chicken, salmon (4%), tapioca starch, wheat flour, vegetable protein concentrate, maize starch, glucose, minerals, dried whole egg, protein powder, cellulose, sunflower oil, vitamins and trace elements. Coloured with natural caramel.

COMPOSITION CANNED

Minced with Chicken: Pork liver, pork, chicken (5%), wheat flour, animal fat, maize starch, brewers' rice, beet pulp, minerals, digest, cellulose, taurine, vitamins and trace elements.

COMPOSITION DRY

Chicken: Chicken (27%) and turkey meal, brewers' rice, maize, animal fat, maize gluten meal, dried beet pulp, cellulose, digest, minerals, flaxseed, vegetable oil, vitamins, taurine, trace elements and beta-carotene. With a natural antioxidant (mixed tocopherols).

DAILY FEEDING AMOUNTS

ADULT CATS

These ranges are a starting point only, because cats' needs vary.^{1,2} Adjust feeding amounts to maintain optimal body weight.

Body Weight kg	Pouches 85g	Can 85g	Can 156g	Dry grams
2	1 ½ – 2 ¼	1 ½ – 1 ¾	¾ – 1	30 – 40
3	2 ¼ – 3	1 ¾ – 2 ½	1 – 1 ½	40 – 55
4	2 ¾ – 3 ¾	2 ¼ – 3	1 ¼ – 1 ¾	50 – 70
5	3 ¼ – 4 ½	2 ½ – 3 ½	1 ½ – 2	60 – 85
6	3 ¾ – 5	3 – 4	1 ¾ – 2 ¼	70 – 95
7+	¾ per kg	½ per kg	¼ per kg	12 per kg

	MIXED FEEDING GUIDE								
Body Weight kg	Pouches 85g	+	Dry grams	Can 85g	+	Dry grams	Can 156g	+	Dry grams
2	1	+	15	½	+	20	½	+	15
3	1	+	30	1	+	25	½	+	25
4	1	+	40	1	+	35	½	+	35
5	2	+	35	2	+	25	1	+	25
6	2	+	45	2	+	35	1	+	35
7+	2	+	8 per kg	2	+	7 per kg	1	+	7 per kg

An 85g pouch or can is equal to 20g of the dry food.⁹

A 156g can is equal to 40g of dry food.⁹

KITTENS

Based on a kitten's age and weight,

- feed the same number of similar-sized cans or pouches of **i/d™ Feline**, as is shown for **Science Plan™ Kitten Healthy Development™** in the Daily Feeding Amounts for kittens in the Science Plan™ section **plus an additional 15%**,
- feed the same number of grams of **i/d™ Feline** dry as shown for **Science Plan™ Kitten Healthy Development™** in the Daily Feeding Amounts for kittens in the Science Plan™ section **plus an additional 10%**.

Prescription Diet™ i/d™ Stress Canine Mini

Calms & settles stress-related digestive upset in dogs < 14kg.

i/d
Stress

Digestive Care

Recommended for:
Stress-related GI disorders*:

- **Stress Colitis***
 - **Irritable bowel syndrome***
- *In dogs < 14kg

Not recommended for:

- Puppies
- Pregnant or lactating bitches

Additional information

- If fed to dogs ≥ 14kg body weight, additional milk protein hydrolysate supplementation may be needed for optimal effect
- Can be fed when a stressful situation is anticipated (moving, fireworks, etc) and for the management of chronic recurrent stress-related GI disorders
- Provides complete balanced nutrition for adult dogs < 14kg and is suitable for long term feeding

Other products to consider

- Acute gastrointestinal disorders:
Prescription Diet™ i/d™ Canine
- Dogs with gastrointestinal disorders requiring a low fat food:
Prescription Diet™ i/d™ Low Fat Canine
- Gastrointestinal disorders with suspected food sensitivities:
Prescription Diet™ i/d™ Sensitive Canine.

Kibble is shown at actual size. Colours may vary from photograph.

FOOD	FLAVOUR	SIZES AVAILABLE
	with Chicken	 

KEY FEATURES ³		KEY BENEFITS
Milk protein hydrolysate	Added	Helps manage stress
Digestibility	High	Improves availability of nutrients whilst allowing for recovery of the digestive tract
Prebiotic fibres from beet pulp and flaxseed	Added	Promote growth of beneficial bacteria and support intestinal microbiome
Ginger	Added	Helps support gastric motility
Omega-3 fatty acids	High	Help break the cycle of inflammation
Clinically proven antioxidants	Added	Neutralise free radicals associated with gastrointestinal disorders

Prescription Diet™ i/d™ Canine

For the nutritional management of dogs with gastrointestinal disorders and dogs in recovery.

i/d

Digestive Care

Restorative Care

Recommended for:

Most gastrointestinal disorders:

- Acute gastrointestinal disorders
- Gastrointestinal disorders in puppies
- Gastric ulceration
- Oesophageal disorders
- Gastric motility disorders, incl. gastric dilatation-volvulus
- Restorative/Urgent care

Not recommended for:

Additional information

- Provides complete balanced nutrition for adult dogs and for growing puppies and is suitable for long term feeding
- In dogs prone to bloat (gastric dilatation-volvulus), exercise and excitement near meal times should be avoided; ideally rest for at least 1 hour before and after feeding

Other products to consider

- Dogs with gastrointestinal disorders requiring a low fat food:
Prescription Diet™ i/d™ Low Fat Canine
- Gastrointestinal disorders with suspected food sensitivities:
Prescription Diet™ i/d™ Sensitive Canine
- Stress related gastrointestinal disorders:
Prescription Diet™ i/d™ Stress Canine
- Fibre-responsive gastrointestinal disorders:
Prescription Diet™ w/d™ Canine
- Adverse food reactions:
Prescription Diet™ z/d™ Canine
or **d/d™ Canine**.

Prescription Diet™ i/d™ Sensitive Canine

For the nutritional support of gastrointestinal disorders with suspected food intolerances.

i/d
Sensitive

Recommended for:
Gastrointestinal (GI) signs that require select ingredients:

- Chronic food-responsive enteropathies
- Antibiotic responsive diarrhoea

Not recommended for:

- Dogs with hyperlipidaemia or pancreatitis, or with a history of, or at risk of, pancreatitis

Additional information

- Formulated with carefully selected animal protein (whole egg) and carbohydrate (brewers' rice) sources
- Provides complete balanced nutrition for adult dogs and growing puppies and is suitable for long term feeding
- For increased palatability, the dry formula is coated with hydrolysed animal proteins, which are very unlikely to elicit allergic reactions

Other products to consider

- For support of most gastrointestinal health disorders:
Prescription Diet™ i/d™ Canine
- Dogs with gastrointestinal disorders requiring a low fat food:
Prescription Diet™ i/d™ Low Fat Canine
- Stress-related gastrointestinal disorders:
Prescription Diet™ i/d™ Stress Canine
- Fibre-responsive gastrointestinal disorders:
Prescription Diet™ w/d™ Canine
- Adverse food reactions:
Prescription Diet™ z/d™ Canine
or **d/d™ Canine**.

Prescription Diet™ i/d™ Low Fat Canine

For the nutritional management of gastrointestinal disorders that require a low fat food. Clinically proven to calm & soothe the digestive tract.

i/d
Low Fat

Digestive Care

Recommended for:
Dogs with gastrointestinal disorders that benefit from low fat food:

- Pancreatitis
- Hyperlipidaemia
- Lymphangiectasia
- Protein-losing enteropathy
- Exocrine pancreatic insufficiency

Not recommended for:

- Puppies
- Pregnant or lactating bitches

Additional information

- Provides complete, balanced nutrition for adult dogs and is suitable for long term feeding
- In acute pancreatitis, feed only after the initial stage during which all food and liquid by mouth are withheld. Safe early feeding is beneficial for gastrointestinal tract recovery.

Other products to consider

- For support of most gastrointestinal health disorders:
Prescription Diet™ i/d™ Canine
- Gastrointestinal disorders with suspected food sensitivities:

Low Fat

Digestive Care

Prescription Diet™ i/d™ Low Fat Canine

For the nutritional management of gastrointestinal disorders that require a low fat food. Clinically proven to calm & soothe the digestive tract.

COMPOSITION CANNED

Original: Liver, rice, pork, maize, dried whole egg, flaxseed, dried beet pulp, oat fibre, minerals, digest, vegetable oil, ginger root powder, vitamins, trace elements, taurine, L-carnitine.

COMPOSITION DRY

with Chicken: Brewers' rice, maize starch, wheat, maize gluten meal, chicken (18%) and turkey meat meal, digest, flaxseed, dried beet pulp, minerals, barley, oats, animal fat, ginger root powder, soybean oil, vitamins, L-carnitine, trace elements, taurine and beta-carotene. With a natural antioxidant (mixed tocopherols).

DAILY FEEDING AMOUNTS

These ranges are a starting point only, because dogs' needs vary.^{1,2} Adjust feeding amounts to maintain optimal body weight.

Body Weight kg	Can 360g		Dry grams		MIXED FEEDING GUIDE	
					Can 360g	+ Dry grams
2.5	½	– ¾	55	– 75	½	+ 15
5	1	– 1 ¼	95	– 130	½	+ 60
10	1 ½	– 2 ¼	160	– 220	1	+ 85
20	2 ½	– 3 ½	265	– 365	1	+ 215
30	3 ½	– 5	360	– 495	1	+ 325
40	4 ½	– 6	445	– 615	1	+ 430
50	5 ½	– 7 ¼	530	– 730	1	+ 525
60+	1 per 10 kg		11 per kg		1	+ 9 per kg

A 360g can is equal to 100g of dry food.⁹
